

Hello!

I was writing to kindly ask if you could help grant ^{U2637 02 FEB 13 11:34} petition 98P-0151/CP2, to prohibit the slaughter of downed animals. It's a tragedy what these living beings suffer when they can no longer stand. Also, for the safety of the human population, I should think the reason the animal cannot get up should figure into the equation. How can an internal and maybe dangerous health reason be ruled out? For all concerned, I hope you can help. Thank you for your time.

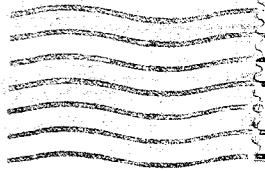

Sincerely,
Diane Houghton
